Jefferson County is gearing up for the biggest cosmic event in it's history this month. The 2017 Solarfest! There has been a lot of speculation about the crowd size, the traffic conditions, safety and weather issues. Concerns and growing fear, along with the excitement have crept into many of the conversations.

What we need to remember in all of the hype and celebration is that JESUS is the LIGHT of the WORLD! It is God, who holds the universe in His hand. He created it and set it in motion. He is in control and we can rest secure in Him. It will be a fun experience to see the moon block out the sun and being in an eerie lighting effect for a couple minutes. But we must never forget that Jesus' light never fades away, nor can it be blocked out of our lives...ever!

LOVE BITS:

This past month LINC Madras was able to help two families get their apartments furnished. We are so thankful for those who have donated household and kitchen items!
